About UTS:CSEC

The UTS Cyber Security Society (CSEC) is a not-for-profit student-run initiative at the University of Technology Sydney. Our team is dedicated to bridging the gap between academia and industry by arming students with the practical skills necessary to launch their careers in information security. CSEC is one of the largest IT society at UTS with over 900 financial members in 2025.

At CSEC, we aim to be the leading hub of cyber security education. As a professional development society, we strive to provide high calibre and quality education for our members. Furthermore, we seek to leave our members with multifaceted skills that they can still apply after university. We acknowledge the importance of catering to all skill levels, knowing that we all started our journey as beginners. This in turn creates an environment where all members are made to feel welcome, enabling us to promote cyber security culture and awareness. Being a people-centric, not for profit organisation, we offer ongoing support, career mindfulness, and eagerness to foster the security community.

We strive to make an impactful difference, not only for our members but the wider community. This can clearly be seen through our outreach engagements with high school students and those already in the industry. Within our member base we focus on not only educating, but empowering all individuals through events such as CSECcon.

Our team is comprised of many passionate individuals with a variety of strengths and talents. Particularly notable, we have our talented Advisory Board on our team who have graduated and are currently employed, skilled cyber security professionals. Thus, CSEC has the advantage of hearing the perspectives of those in industry, knowing the trends, and ensuring our content remains relevant.

We are excited at the prospect of having your company on board for our fifth CSECcon and can't wait to get in touch further!

CSECcon Proposal

Why CSECcon?

CSEC genuinely cares for the development of all our members and the wider community. After noticing a gap between academia and industry, as well as cybersecurity conferences in Sydney at large, we have decided to find a solution to this growing problem. CSECcon allows students to expand their horizons and be provided with a platform where they can connect with and learn from many different industry professionals in one space. This year marks the fifth time we are running CSECcon. We are committed to fostering an environment where industry has the chance to meet with the future generation of cyber security professionals.

What is CSECcon?

CSECcon is a cybersecurity conference run by UTS:CSEC. The conference will have a series of presentations alongside a live CTF for attendees to participate in.

Who is CSECcon for?

CSECcon is an information security conference run by community members for community members. CSECcon is aimed primarily at tertiary students, however, we welcome academics and professionals within the cybersecurity industry. Speakers are encouraged to deliver industry-relevant presentations on a range of cybersecurity topics. If you are reading this, CSECcon is for you!

Our Goals + Objectives:

- 1 Promote cybersecurity culture and awareness amongst students and professionals
- 2 Stimulate growth of cybersecurity conferences in New South Wales
- 3 Encourage attendees to utilise their skills in the largest National CTF
- 4 Cultivate an environment for social and professional relationships

Details

Dates and Time

CSECcon will consist of a full day of talks, workshops and a CTF. The main event will be held on **Saturday 12th of September**. Winners for any challenges, including the CTF, will be announced on the following Monday.

Location

CSECcon will be held in person only at the University of Technology Sydney (UTS) campus in Building 11.

Target Audience

The target audience of CSECcon are university students and early-career professionals who are new to cybersecurity. We also seek to have industry professionals at the event to allow students to network and discover the different areas of cybersecurity.

Call for Papers and Events

During the conference, speakers from the industry will be giving talks on a range of cybersecurity topics. We welcome any speakers who would like to give talks or workshops on a cybersecurity topic of interest. If you would like to be a speaker at the event, please fill in our call for papers through the link below.

 utscyber.org/cfp

Activities

What to do on the day?

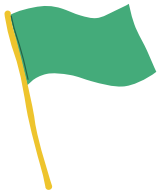

We have a variety of activities during CSECcon so students can be exposed, from talks to physical security, networking and more!

Talks & Workshops

Get excited for the talks that are scheduled across our conference. If you are interested in being one of our speakers, please fill out the call for papers below:

 utscyber.org/cfp

CTF Space

We also have a dedicated CTF space. A discord channel will be available to facilitate teaming up for the CTF. Prizes are available!

Rest/Quiet Room

To accommodate students/speakers for a quick recharge during the conference.

Networking with students

There will be many students attending the event on the day, a lot of chance to network with students and get a taste what what University looks like for them.

Meet the Team

Team Organisation

At CSEC we pride ourselves on our team. Not only does our team consist of our executives, but we are also privileged to have an Advisory Board consisting of past CSEC executives who are currently working in industry. We are particularly thankful for how they offer unique perspectives and continue to ensure our society is preparing people for their future. Furthermore, CSEC has a General Committee who supports our executive team.

SPONSOR LOGO DISPLAYED ON ONSITE SPONSOR SIGNAGE	✓	✓
DISTRIBUTION OF COMPANY BRANDED FREEBIES	✓	✓
COMPANY SHOUTOUT DURING THE EVENT	✓	✓
PHYSICAL BOOTH SPACE AT THE EVENT		✓
FIVE TICKETS TO THE EVENT		✓
DETAILS OF WINNING CTF TEAM ²		✓
COMPANY LOGO DISPLAYED ON TAKE HOME MERCHANDISE ³		✓

* Prices are in AUD and are exclusive of GST. Event sponsorship only valid for CSECcon V (12th September).

¹ Includes Social Media Publicity, Logo on Website (cseccon.uts cyber.org).

² Subject to the consent of the CTF winners.

³ Merchandise defined as clothing items given to/on sale for attendees.

How you help bridge the gap

Our benefits from your support

PRIZES AND GIVEAWAYS

- Books, eBooks
- Security Training Courses; HackTheBox, PentesterLabs, CompTia Sec+ etc.
- Hardware Kits
- Physical Security Equipment
- Computers (Raspberry Pis)

PROMOTIONAL MERCHANDISE

- T-Shirts & Hoodies
- Lanyards
- USBs
- USB Blockers
- Production company hire
- Booklets

STREAMING GEAR

- Cameras
- Camera Tripod
- Audio Equipment

SOCIAL EVENTS

- Venue Hire
- Food & Drink
- Equipment Hire

CSECcon 2025: Recap

CSECcon 2025 welcomed over **250 attendees**, with over **160 attendees** being students to experience **19 inspiring talks** covering all aspects of cybersecurity. CSECcon provided grounds for UTS students and staff, external students, high schoolers and industry professionals to network, form meaningful relationships and further grow their knowledge within the field of cybersecurity.

We had areas for attendees and presenters to network and introduce themselves through the food, merchandise and badge decoration stalls – giving attendees a chance between the downtime to unwind.

We also offered stalls to our sponsors so they could **engage with our members** and provide information about their companies and careers. CSECcon attendees were also encouraged to form teams and compete in our own CTF, for a chance to win **extra prizes** from the event, and from our sponsors!

Now with four year's worth of amazing feedback from attendees, sponsors, and the community at large, we can't wait to run CSECcon again this year!

Thank You!

More information regarding CSECcon 2026 will be available on the website

 cseccon.uts cyber.org
